Projects

Personal Website

Technologies: JavaScript • HTML5 • CSS •
jQuery • Git • Figma

- Built my own personal website showcasing my skills and experiences.

Student Database

Technologies: Python • Django • MongoDB •
HTML/CSS • JavaScript • Figma

- Built a functioning database app for Lake Norman High School to store, manage, upload, and organize student documents (absence notes, tardy slips, doctor notes, etc.) digitally.
- This would help reduce the workload, promote organization, and allow for a cleaner, simpler, and more modern database
